

UNIVERSITY OF OREGON

Center for Advanced Materials Characterization in Oregon

Presents

Problem Solving Using Microanalysis Tools Workshop

With

Paul Carpenter (Washington University)

John Fournelle (University of Wisconsin)

Dale Newbury (National Institute of Standards & Technology)

Nicholas Ritchie (National Institute of Standards & Technology)

Ed Vicenzi (Smithsonian Institute)

Michael Jercinovic (University of Massachusetts)

Ellery Frahm (University of Minnesota)

A three day hands on workshop exploring problems and solutions for difficult and/or complex analytical situations using the latest analytical methods, instrumental techniques and software algorithms. Workshop will be held in the new Integrated Science Complex, Lorry I. Lokey Laboratory, MicroAnalytical Facility.
